
Backgrounder

Canada and Manitoba invest in water infrastructure upgrades

Joint federal, provincial, and municipal funding through the Investing in Canada Infrastructure Program (ICIP) will support four projects in Manitoba. These projects will upgrade water infrastructure to improve system efficiency and protect local communities and environments. The Government of Canada is investing more than \$22.7 million in these projects through ICIP's Green Infrastructure Stream. The Manitoba government is providing more than \$19.5 million. Contributions from project proponents total more than \$12.7 million.

Project Information

Community	Project Name	Project Details	Federal Funding	Provincial Funding	Proponent Funding
Beausejour	Beausejour Water Treatment Plant	Construct a new water treatment plant and reservoir	\$4,956,000	\$4,129,587	\$3,304,413
Oakview	Rapid City Water Distribution System	Replacement of approximately 9,175 meters of water pipes	\$2,611,042	\$2,175,651	\$1,740,912
St. Adolphe	St. Adolphe Pump Station Replacement	Reconstruct the existing pump stations and gravity outfalls to the current design codes and standards	\$3,650,000	\$3,650,000	<i>The Province of Manitoba is the Proponent for this project</i>
Stonewall	Stonewall Woodlands Regional Water Supply	Providing a regional solution to increase access to a reliable high-quality water supply with reservoir upgrades and treatment improvements	\$11,500,710	\$9,582,967	\$7,668,098
