MPI Drive-Thru Testing Site 125 King Edward St.

**Doctors’ Clinics in Winnipeg**

Testing is now available at select doctors’ clinics. Note that protocols are in place to separate patient testing from regular medical appointments including additional daily disinfection and separating testing from regular appointments by offering it after hours or in a different area of the clinic. Physicians and staff will also be wearing appropriate personal protective equipment. These measures will ensure clinics can provide testing separately while also providing safe, ongoing medical care for their existing patients.

<b>Location</b>
Dakota Medical Centre 17-845 Dakota St.
